November 2024

By Brandi Kelly-Contreras

So many wonderful things to be thankful for. We at QBS are thankful to have a full board for next year. If you weren't at the meeting last month, Dr. Deb has volunteered to be your President for 2025.

I hope that this month brings you all the blessings of the season. A time to enjoy family and friends and maybe a little sewing or a lot, depending on how far you might be behind.

We tend to see new things and drop everything to start a new project before the others we have started get done. Did I

just explain how a UFO gets started? I'm pretty sure I did, maybe since I have so many. Oh, how I digress.

This month we are going to have our Quilters University. If you have never been, then I highly recommend you come to the meeting. We are going to have stations set up by very talented members teaching you new techniques. After each presentation, you will rotate to the next demonstration. This is a great opportunity for you to learn some tricks and tips. Hope to see you there.

Special points of interest:

- Programs and Workshops for next year.
- Thank you letter from Memorial Care.
- Winter Retreat Information
- Thank you from Cathy, our 2024 Opportunity Quilt winner.
- Brad's 5-point star pattern.
- Longarm for sale - see classified ad.
- Word Search and a Coloring Page.

I hope that everyone enjoyed the Studio Tours from members Jo Melis, Sharron Richardson, Kathy Peysar (KP), Dorothy Foral, and Alan Calgaro. You may have gotten a few ideas for storage, organization, and some confirmation that YOU aren't crazy.

For November we will be having our "Quilters University" program. This educational evening will be divided into 10-minute segments with various members providing a quick tutorial on the quilting process. Bring a pad of paper for keeping notes. Some of the presenters may also have handouts for your reference. Quilter's University has always been a fun and informative program.

Thank you Jo, Sharron, Kathy, Dorothy and Alan for sharing your studios.

Black 2 1/2 yds (86" - 50" sashing, 21" border, 15" binding)

Backing 3 yds

Included is a stitch length regulator, leg casters, pivot access table, two sets of canvas leaders, a light bar, a built-in bobbin winder, laser light, a double small spool holder, horizontal channel locks, and an electronic needle positioner. Intraguild BOM by Alan Calgano

Thank you to those members who stitched the Autumn Leaf (Maple Leaf) block for October. Congratulations to Kate Weber and Jody Baca who won a set of the blocks that were turned in.

The block for November is the Flying Geese block. There were printed instructions from the "Fat Quarter Shop" for the Fast Flying Geese method of making 4 blocks at a time (not published here due to copyright restrictions). We are making a 2½"x5" finished Flying Geese segment. The kits had 2 different focus fabrics and 8 background squares. This is enough fabric to make 8 segments. There was also a half-sheet of specific instructions on how to join the 8 segments into a larger block in one of four configurations (see below). Have fun arranging your block!

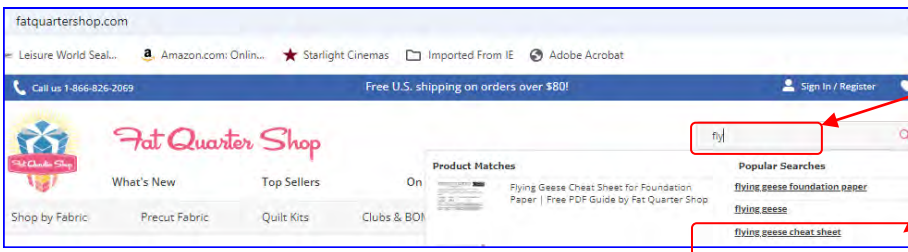

If you are struggling to make the blocks properly, visit www.FATQUARTERSHOP.com for a video tutorial.

Your kit will make 4 Flying Geese of each color. Follow the instructions on the "Fast Flying Geese Cheat Sheet" provided by the "Fat Quarter Shop". If you need help, there is an online tutorial.

You will make 8 total flying geese sections (A). Stitch them in pairs of matching colors (B), and then stitch the 4 "B" sections in one of the 4 configurations below.

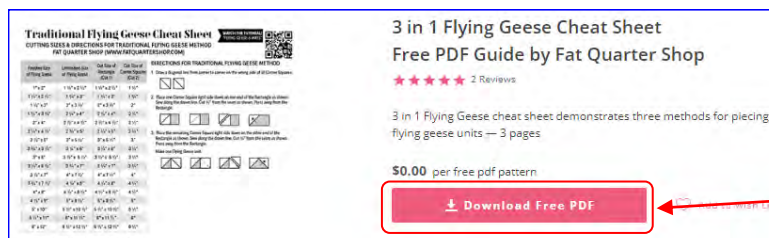

The Flying Geese Cheat Sheet is also available for free at "Fat Quarter Shop". Use page 2 of the cheat sheet for these geese.

Search here.

Drop down menu will appear after you type "fly" in the search field. Select the "flying geese cheat sheet" entry.

On the search results page, select the "Traditional Flying Geese Cheat Sheet" (1st one in the search results).

Select the Download button.

I want to say a great big “Thank You” to Brad Dumm for graciously sharing his pattern for a 5-point star that is NOT paper pieced. It is simply pieced.

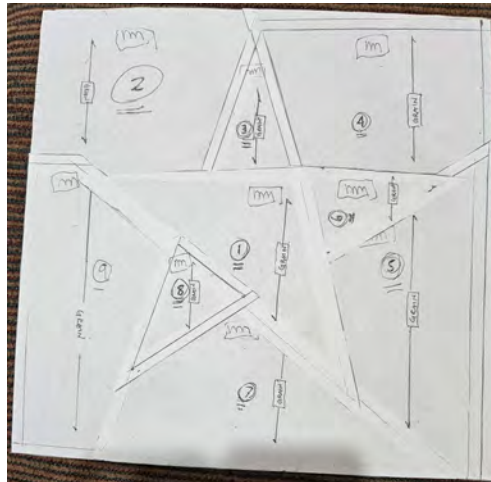

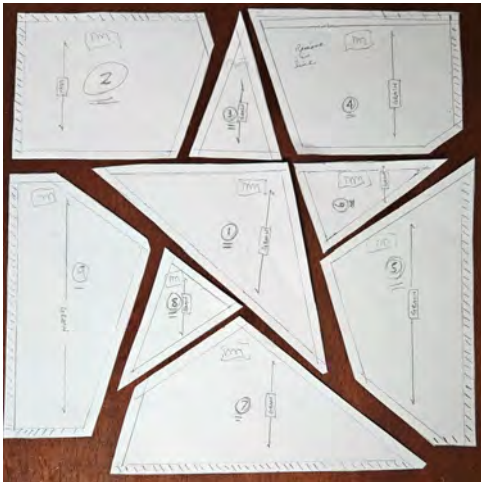

When Brad showed his “Stars” quilt for Show and Tell in July, he told us the story of how he searched high and low for a pattern for a 5-pointed star and wasn’t able to find one. Several years ago, I too was trying to find a pattern for a 5-pointed star and the only patterns I could find were paper pieced. I gave in and paper-pieced the stars in my flag quilt. I wish I had thought to take this one step further and make my own piecing pattern but I am so very happy that Brad did just that.

The next 8 pages contain the templates for the 9 pieces of fabric you need to piece this star along with some notes from me. Some of the scans are a little light so if you see these lines  along the edge that means that side of the fabric is the outside of the block.

Brad also included grain lines as well as a measuring tape so you can get your templates to the right scale and your pieces in the right direction. Brad gave me scanned hard copies that I, in turn, scanned into my PC and then I inserted them into this newsletter. Therefore, these pictures are probably not at 100%. **You will need to adjust them** to get them to 100%, or whatever size you want, for your stars. Brad’s finishes at 12” so 12 1/2” unfinished. Brad - Thank you again, Patti.

Here is a layout to show you the final assembly of the pattern pieces.

You can cut them out of two fabrics and then swap the background pieces (i.e. 2, 4, 5, 7, and 9) to get a star and its reverse image. However, if you want all your stars to be the same, pieces 2, 4, 5, 7, and 9 are your background pieces. This means that pieces 1, 3, 6, and 8 are your star. Sew the pieces in the order of your choice. There are more pictures on the next page.

Patti's Note:

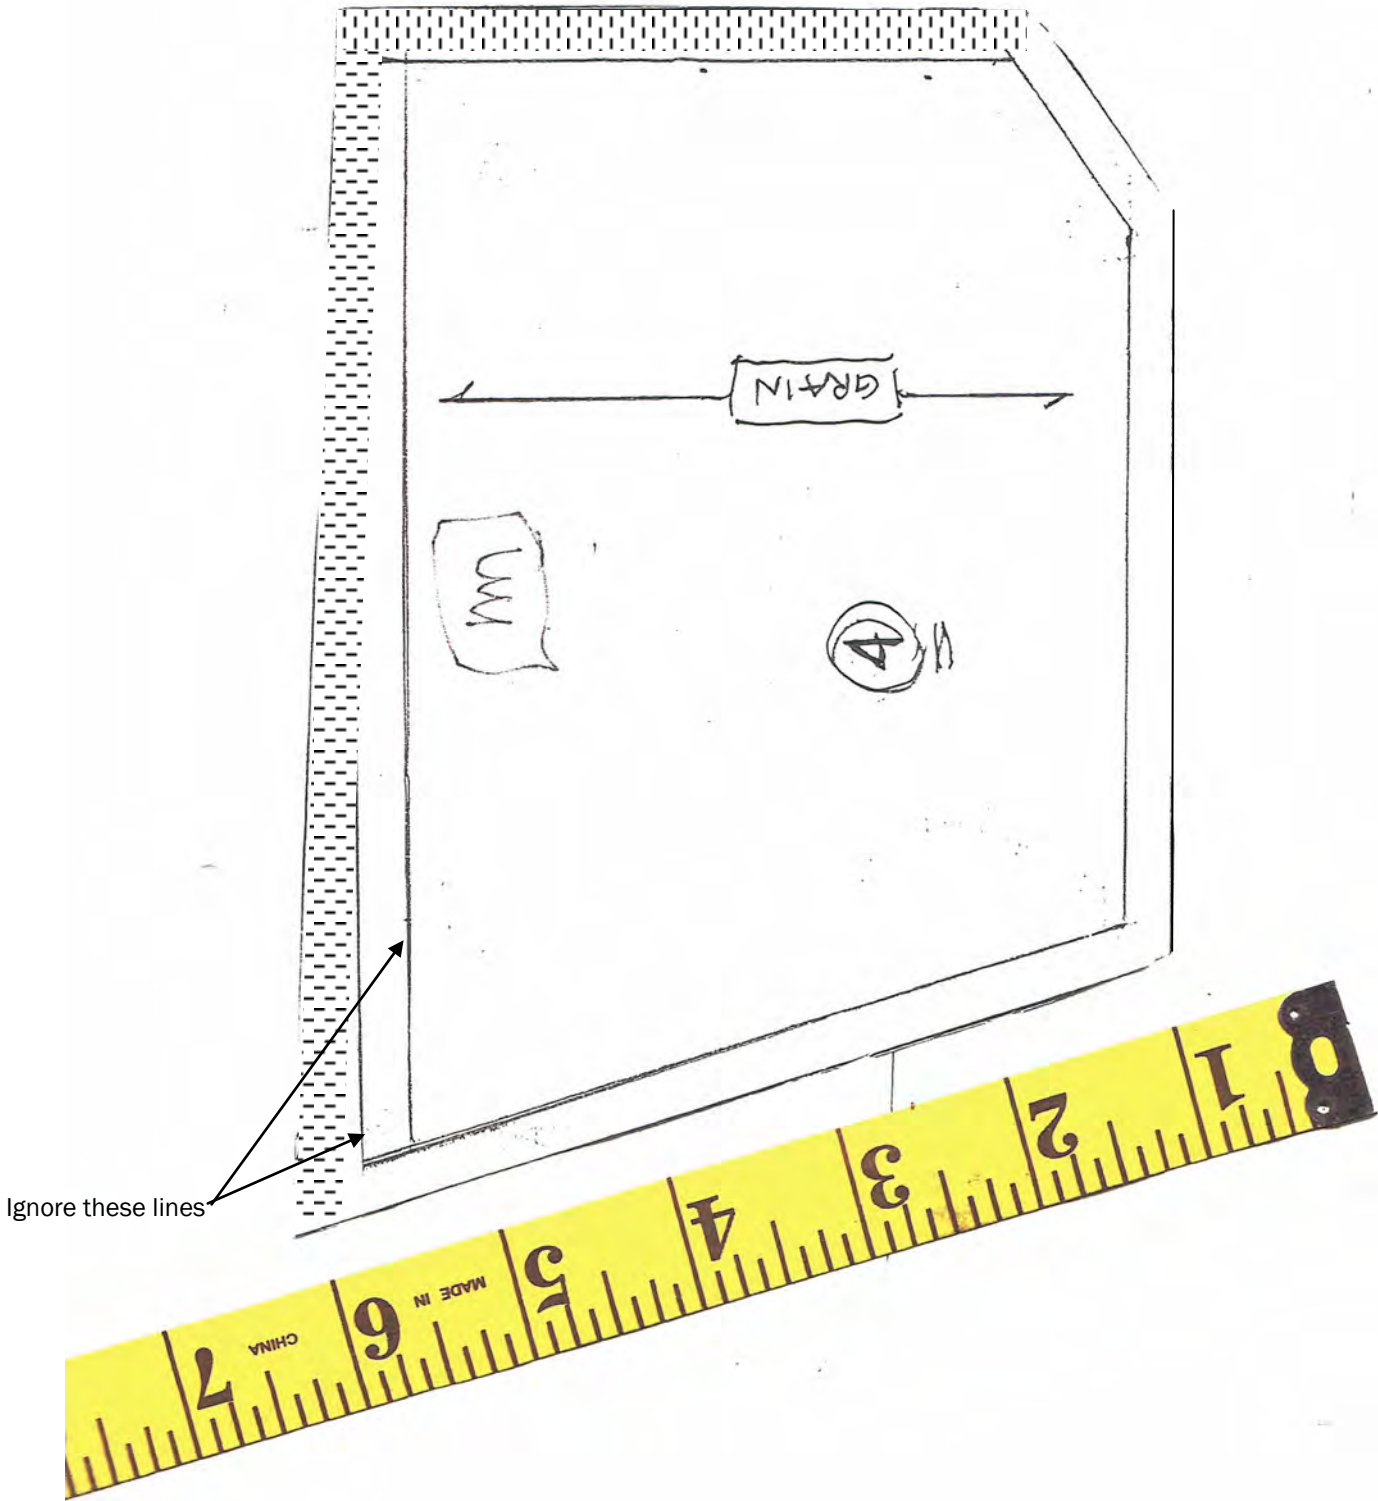

I only darkened the cutting lines as all seam allowances are $\frac{1}{4}$ ". This applies to all of the scanned pieces.

Patti's Note:

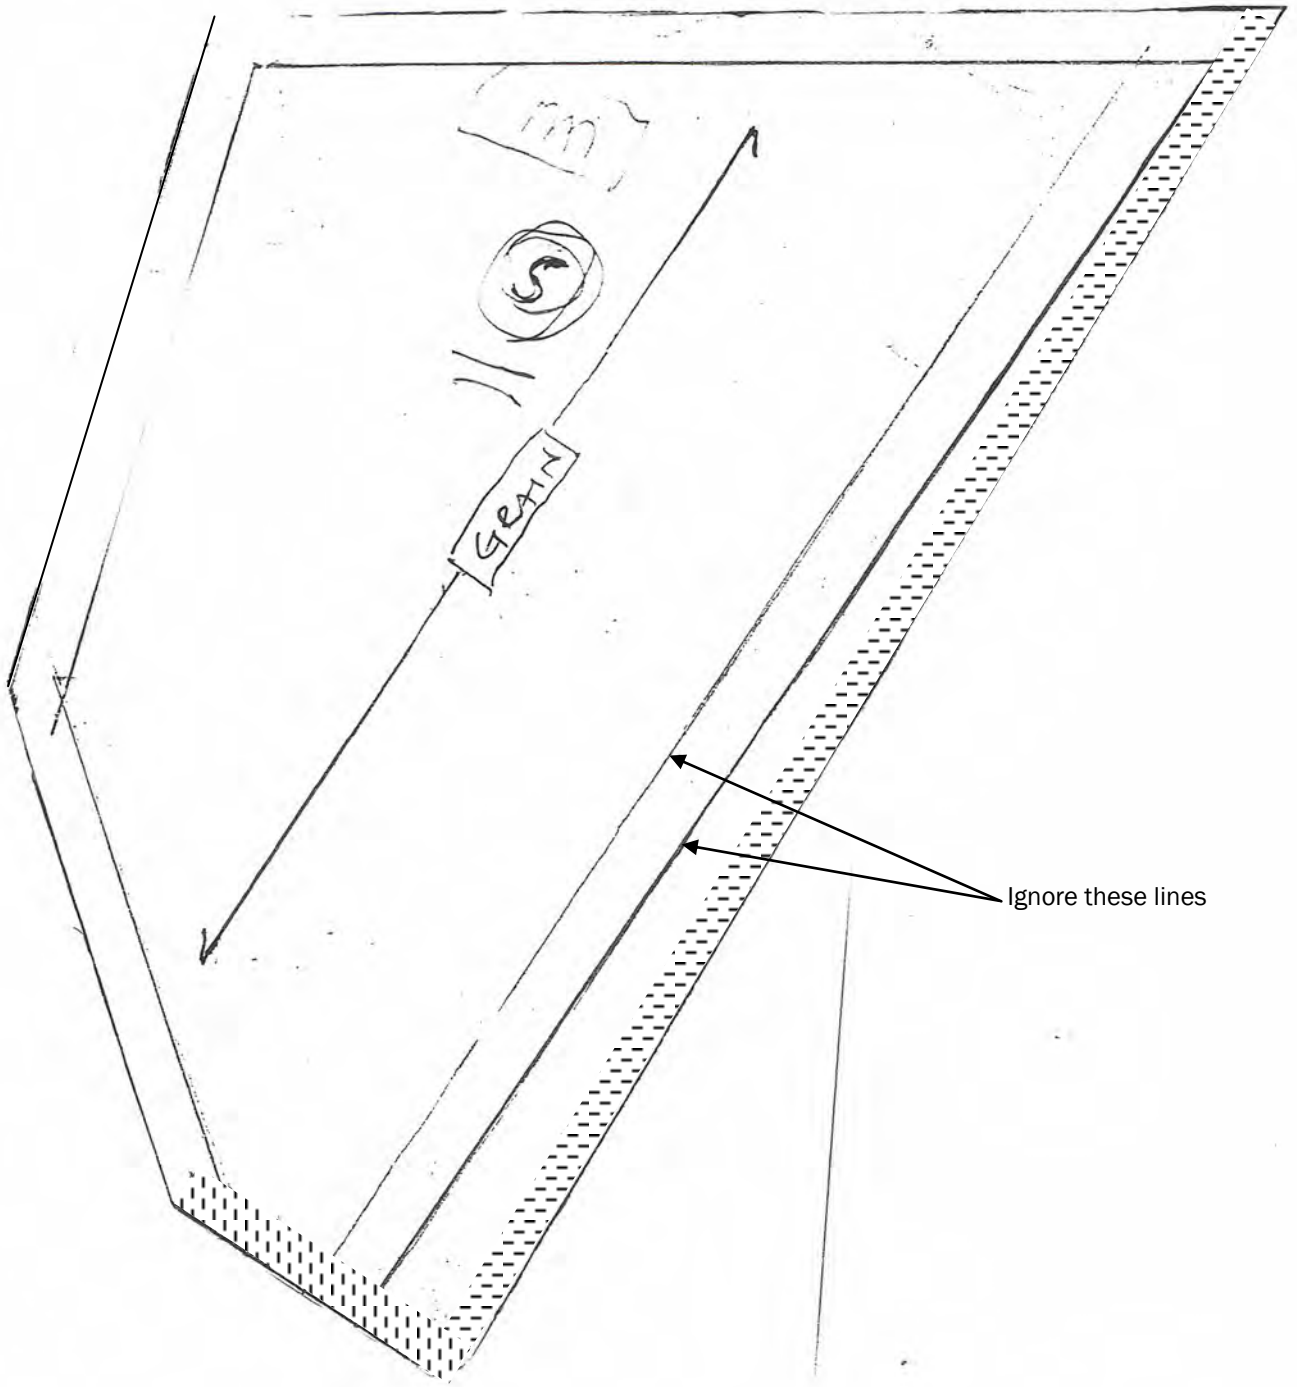

The left side of this piece has 3 lines in Brad's scan. I used the outside line as the guide because this is where Brad has the dash marks.

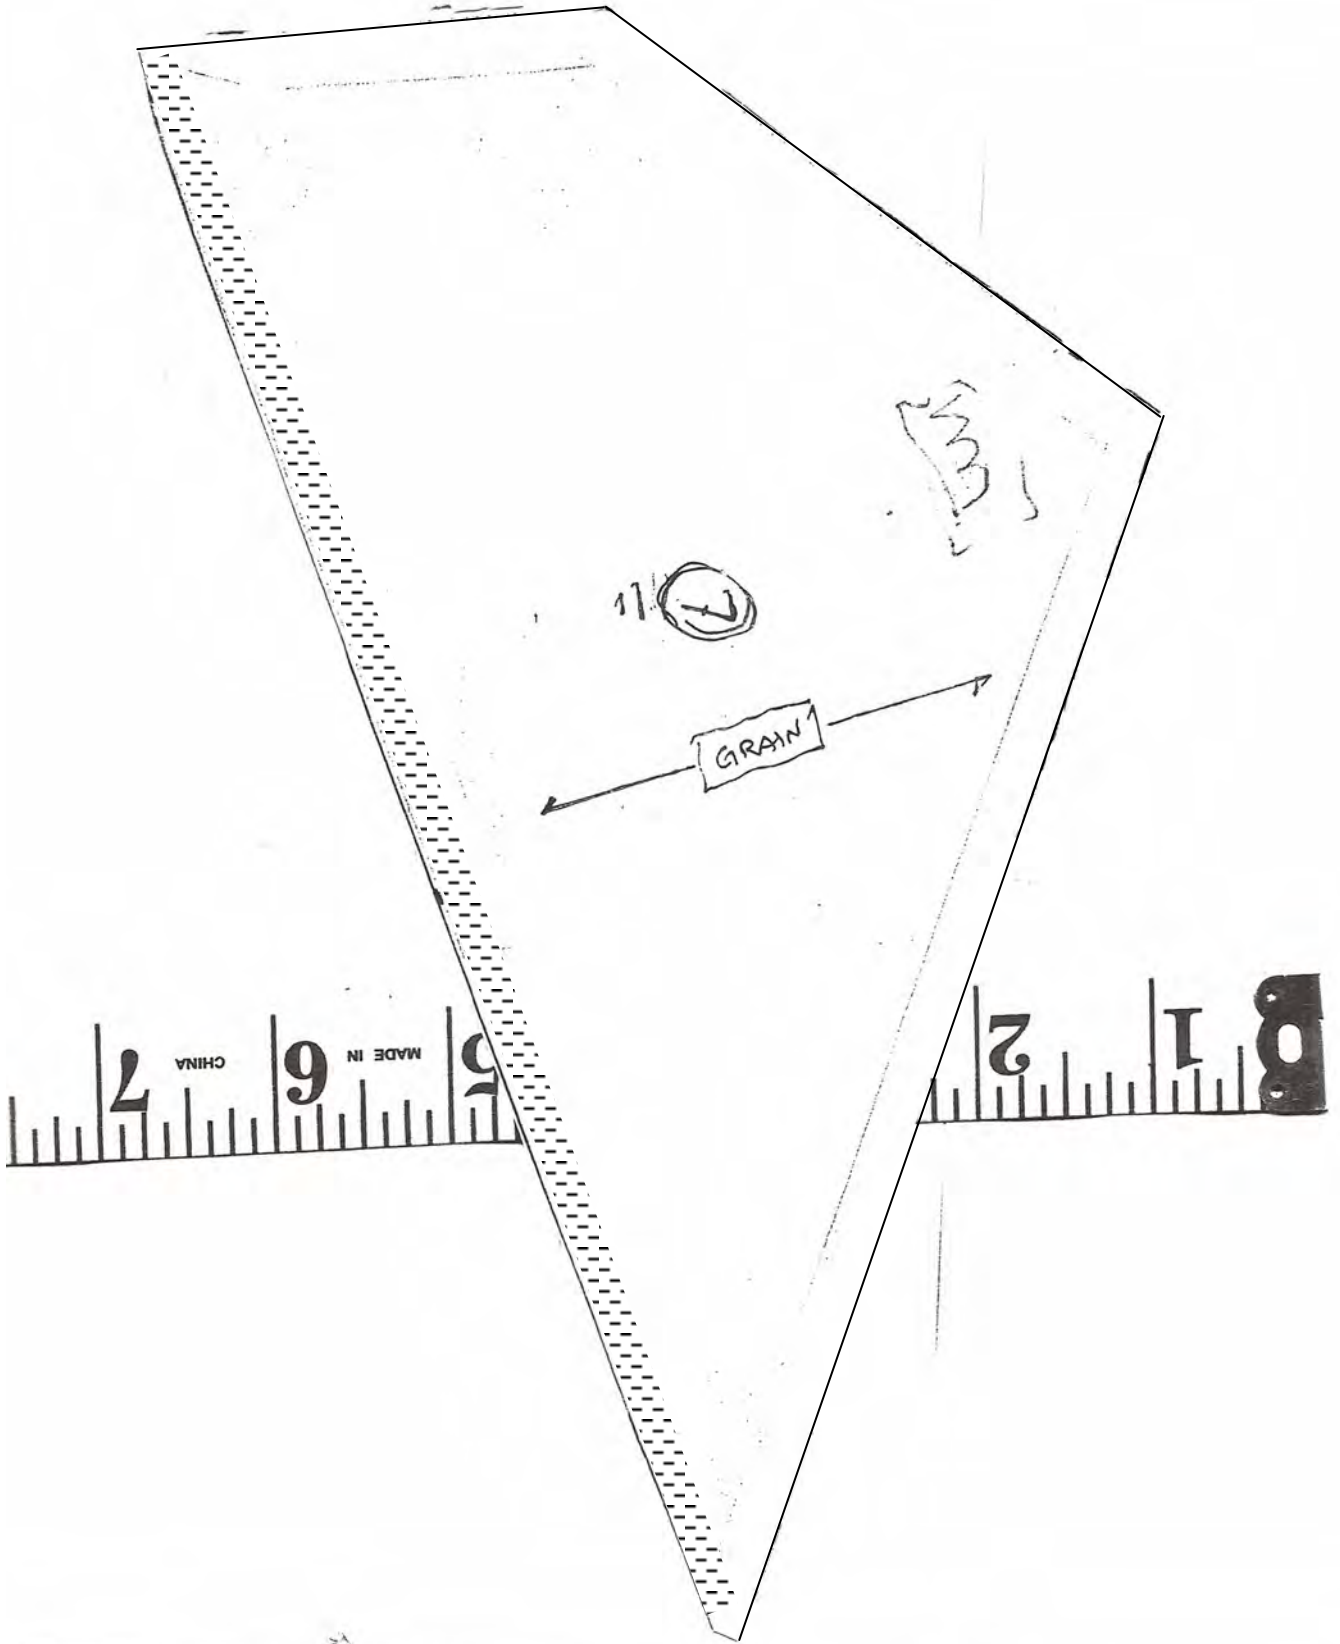

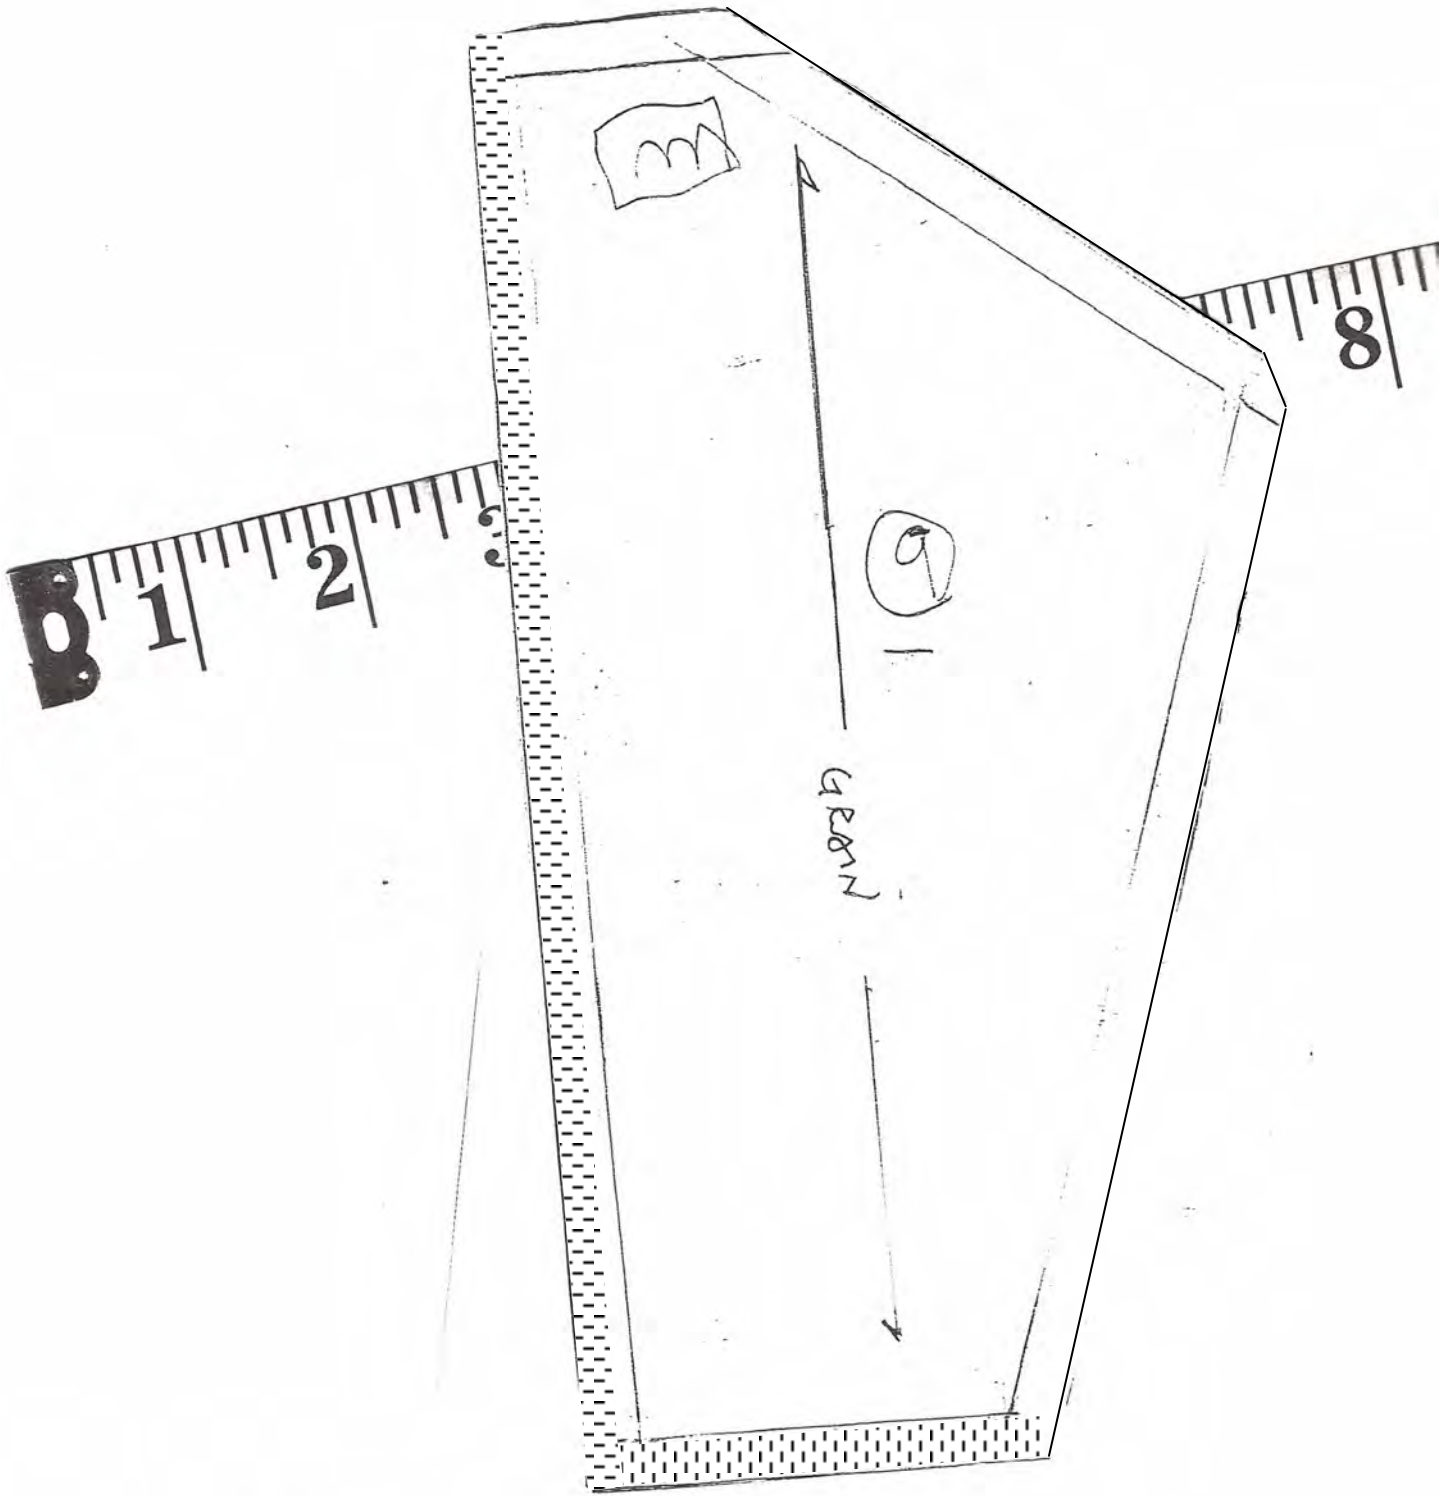

Ignore these lines

Patti's Note:

The right side of this piece has 3 lines in Brad's scan. I used the outside line as the guide because this is where Brad has the dash marks.
